

# Agent 2008 Update Log

## List of Items added in release 33 (SP1)

1. Send an Alert via email to a vendor group was not working. – Fixed.
2. Send an Alert via email to a group of employees and clients however we see that it only sends email to group of employees only and not to clients – Fixed.
3. Sending email to multiple employee titles was not working – Fixed.
4. Send a Time notification email to employees whose daily monitoring is on was not working. -- Fixed.
5. Create a new Alert without clicking the save button and go to “Refine an Alert” Tab and set the filter e.g., Project ID. Click the “Save” Button, The Alert is not saved. -- Field
6. Added a new Alert “When Time Entries are rejected for.....” – New
7. In login screen “Remember” option was not allowing to logon automatically. – Fixed
8. The Help file for BillQuick was updated.
